SOME ANSWERS. Our taxes are due and are about \$25. Our share of the royalty collected by the city off the "white slaves" and saloons is about \$1.00 Mexican money. That means about \$400 gold per year off of each saloon and \$200 off of each "salove" instructions. off of each saloon and \$200 off of each "slave" just for the city alone, besides what us "Christians" and taxpayers get as a state and nation. Whiskey can be made cheaper than vinegar and the sale of it can be regulated with less expense than morphine or meat. We can't regulate the state and nation, but we can go with the preachers to the city council and ask them to make our taxes a few cents a piece more that our financial interest in this great crime may be canceled against us and we as a city may go to that celebration on the 25th of this month feeling like we don't need the money. We have two teams for sale today, reasonable, to help pay our share.
